“ INSIGHTFUL

Well-organised program for independent board directors that I found very insightful, practical and useful, including the interactions with the participants and the use of case simulations.

Crafted over two days with a break in between, it gave me the opportunity to reflect on the learnings from the first session and how to pursue this pathway further.”

“ INTERNATIONAL, HANDS-ON

Excellent training bringing together a hands-on toolkit of “do’s and don’ts”, valuable insights into the recruitment process for NEDs and the opportunity for our group to directly exchange with two independent directors on how to be successful in obtaining board mandates. Our group represented various countries, industries and profiles while sharing a passion to learn and the courage to exchange openly on the challenges we each faced! I highly recommend this programme to any aspiring independent Board director!”

“ POWERFUL

This 2-session workshop has been very useful in my journey to board mandates. Indeed, it gave me practical and relevant guidance/tips to define my Unique Value Proposition as well as my selling pitch.

The various simulation exercises were very powerful to practice and test my leanings, particularly in the second day session. Finally, concrete advice on how to network efficiently as well as the testimony by a full-time director have been very inspiring to me.”
