Purposeful Leadership

ESG now heads the corporate agenda. Companies are under pressure to deliver. Yet a company is not a decision-maker. Behind companies are people, making decisions by the hour. This is why corporate ESG starts with the individual.

Unlock powerful learning interactions and insights while sharing experiences and best practices with HR leaders from diverse organisations. Take part in meaningful conversations and develop honest human relationships through guided joint reflection and brainstorming.

The program brings together HR peers who have no formal accountability or interaction with each other and sets them to work on content from renowned management thinkers. Participants acquire deep learnings that wouldn't be available otherwise, sharing them with their professional environment and creating breakthroughs for the whole organization.

Format

90-minute virtual peer coaching sessions — one per month for 5 months.

Groups of 4 to 5 participants from different companies, with a similar level of responsibility.

Guided discussions on leadership topics, to improve themselves and their organisations.

Why it works

Learn from peers in other organisations, share experiences and brainstorm.

Create connections outside your own company, grow your professional network.

Draw from a greater variety of perspectives, make decisions with greater confidence.
